

Docket No.: RPL-0010 REI

REISSUE APPLICATION DECLARATION AND POWER OF ATTORNEY BY INVENTOR

As a below named inventor, I hereby declare that:

My residence, post office and citizenship are as stated below next to my name,

I believe I am the original, first and sole inventor (if only one name is listed below) or an original, first and joint inventor (if plural names are listed below) of the subject matter which is described and claimed in patent number, granted, and for which a reissue patent is sought on the invention entitled METHOD FOR FORMING ELECTRODE FOR PLASMA DISPLAY PANEL, the specification of which

☒ is attached hereto ☐ was filed on _____ as Reissue Application No. _____ and was amended on _____ (if applicable)

I hereby state that I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is known to me to be material to patentability in accordance with Title 37, Code of Federal Regulations, Section 1.56.

I hereby claim foreign priority or provisional application benefits under Title 35, United States Code, Section 119 of any foreign application(s) for patent or inventor's certificate, or provisional application(s) listed below and have also identified below any foreign application for patent or inventor's certificate, or provisional application(s) having a filing date before that of the application on which priority is claimed:

Prior Foreign Application(s) or U.S. Provisional Application(s):			Priority Claimed	
Number	Country	Day/Month/Year	Yes	No
P98-31912	KOREA	05/08/1998	X	

I hereby claim the benefit under Title 35, United States Code, Section 120 of any United States application(s) listed below and, insofar as the subject matter of each of the claims of this application is not disclosed in the prior United States application in the manner provided by the first paragraph of Title 35, United States Code, Section 112, I acknowledge the duty to disclose material information as defined in Title 37, Code of Federal Regulations, Section 1.56(a) which occurred between the filing date of the prior application and the national or PCT international filing date of this application:

Prior U. S. Application(s):	Filing Date	Status: Patented, Pending, Abandoned
Serial No.		

I verily believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all boxes that apply.)

- ☐ by reason of a defective specification or drawing.
☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.
☐ by reason of other errors.

At least one error upon which reissue is based is described as follows:

The patentee claimed less than he had a right to claim in the patent. For example, new independent claim 7 is broader than independent claim 1. Independent claim 7 recites a method for forming a conductive layer on a surface, which includes preparing a paste by mixing first and second powders and a binder, wherein the first powder has a specific gravity greater than the second powder, and coating at least a portion of the surface with said paste rather than coating Ag paste including some black powder and some white powder on a transparent electrode.

Independent claim 7 also recites separating said layer into two sub-layers and removing the binder from the two sub-layers to form the conductive layer. Such recitation is broader than independent claim 1. Claim 1 recites level-separating the black and white powders contained in the coated Ag paste based on a specific gravity difference for a certain time and burning out a binder from the coated Ag paste to thereby implement a firing process. Therefore, independent claim 7 is broader since it does not recite a burning out a binder or a coated Ag paste.

All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant.

☒ I hereby desire to seek broadening of the claims.

I hereby appoint the following attorney(s) and/or agent(s): Daniel Y.J. Kim, Registration No. 36,186 and Mark L. Fleshner, Registration No. 34,596; Carl R. Wesolowski, Registration No. 40,372, John C. Eisenhart, Registration No. 38,128, Donald R. McPhail, Registration No. 35,811, Rerte A. Vazquez, Registration No. 38,647, Carol L.
